NIMA Declassification/Release Instructions on File

MEMORANDUM FOR FILE

25X1A

From 1030 to 1200 hours, personnel from the Office of Basic and Geographic Intelligence (OBGI) briefed on the activities of that office. CIA personnel present during that briefing were: Messrs. King, [redacted]

25X1A

[redacted] Following [redacted] brief on the [redacted] a general discussion evolved concerning the metric accuracy required and the preferred method of displaying terrain information on the [redacted] and the possibility of combining [redacted] with either the [redacted]

25X5

25X1A

[redacted] stated that the CIA did not need the metric accuracy provided by a JOG for the display of intelligence information. The JOG Multiple Use Manuscript (MUM) is currently utilized because of its availability. Some less sophisticated base map could probably be utilized, especially in remote (underdeveloped) areas. He further stated that the Agency would prefer the shaded relief (air brush) method for portrayal of terrain information (as used for the [redacted] rather than utilizing the JOG-G base. The JOG-G base tends to obscure the overprinted intelligence information. [redacted] also stated that initially he foresaw no particular difficulty in combining [redacted] with either the [redacted] providing the requirements of the principal users continue to be filled. He recommended that discussions be conducted between the Agency and appropriate staff elements at the DMA on these three possible changes to the [redacted]
